Making History Campaign

Goal: \$3.5 billion

Raised: \$4.3 billion (326,000+ donors)

- Undergraduate Financial Aid: \$286 million (788 Scholarships)
- Faculty, Directors, Curators, Coaches: \$573 million
- Programs & Research: \$2.02 billion
- Buildings & Renovations: \$753 million

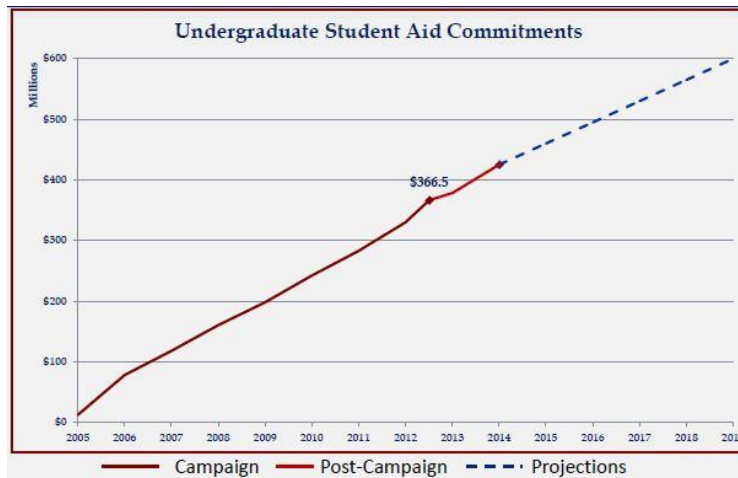

Engaged the Penn Community

- Attendance for major alumni events & programs has risen 66%
- Young alumni participation increased by 89% over five years

Giving to Penn in Multiple Ways

- 2,178 individuals who gave \$250k or more to the campaign. Of those:
 - Over 75% gave to at least 2 of the 6 campaign priority areas and 48% gave to three or more
 - Over 57% of these donors supported at least two different schools & centers

Undergraduate Student Aid Commitments

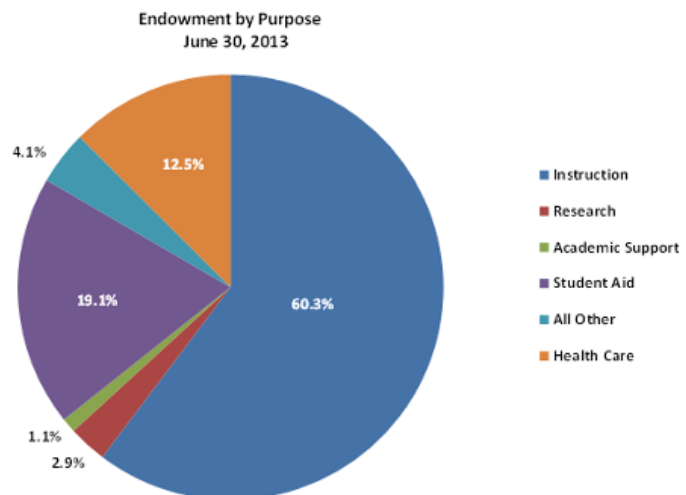

Penn's Endowment

FY04 - \$4 Billion

FY14 - \$9.6 Billion

***This places Penn as one of the largest University endowments, but still relatively underendowed when looking at the size of endowment per student.**

Admissions

	1982	2014	
Applications	10,571	35,868	
Admit Rate	48.5%	9.9%	
# of Students Admitted	4,598	3,583	
Yield	45.6%	68%	

Early Decision (Class of 2018)

- Applicants: 5,141
- Total Admitted: 1,299 (25%)
- Deferred (Later Admitted): 125

Alumni Children & Grandchildren

- 35-40% ED applicants admitted
- 13-16% of Class of 2018

Notable Research & Teaching

Carl June, [Center for Advanced Cellular Therapeutics to Rise on Penn Medicine Campus](#)

Danielle Bassett, [2014 MacArthur Fellow](#)

Campus Update

- Singh Nanotechnology Center
 - A 78,000 sq. ft. state-of-the-art facility that houses several multi-user experimental laboratories critical to advanced research and development in nanotechnology
- Golkin Hall (Law School)
 - Dedicated in 2012, Golkin Hall serves as Penn Law's main entrance and completes its vision for the finest urban law school campus in America
- Perelman School of Medicine
 - 10-story Smilow Center for Translational Research brings Penn basic scientists and physicians together to deliver discoveries quickly and effectively to patients.
- George A. Weiss Pavilion at Franklin Field
 - 18,000 square foot weight room dedicated to Penn's varsity intercollegiate athletes, with state-of-the art equipment, and setups that are unique to the University.
- Penn Park
 - 24 acres of athletic fields and open space located to the east of Penn's academic campus
- Shoemaker Green
 - New green space is both a destination and a pedestrian route from Locust and Smith Walks in the core of campus to the historic buildings surrounding the space and further eastward to Penn Park

- ARCH
 - Houses The Center for Undergraduate Research and Fellowships (CURF), Ben Franklin Scholars, University Scholars, Makuu, La Casa Latina, The Pan Asian American Community House (PAACH) and Student Performing Arts
- New College House (on Hill Field)
 - Ground has been broken on Hill Field! Penn's first-ever residential building specifically designed as a college house. Completion is expected in 2016.
- Henry A. Jordan Medical Education Center & CACT
 - Scheduled to open in 2014, the Jordan Center will be among the first medical educational spaces in the nation to be integrated into an active clinical and research facility.
- Perry World House
 - Will be a gathering place for faculty and students from all twelve of Penn's schools to engage with eminent international scholars and policymakers on pressing global issues of the 21st century.
- Neural & Behavioral Sciences Building
 - An expansion of the Lynch Laboratories, this new building will provide for the collaboration, exchange, and integration of knowledge that characterizes the study of Biology and Psychology at Penn.
- Penn Wharton China Center
 - The location is tentatively set to open in January 2015 in the Beijing Central Business District and will be the University's first physical presence in China
- South Bank
 - The first phase of South Bank development includes site improvements and infrastructure, signage and wayfinding, and the design of the Pennovation Center.
- Cira Center South – FMC Tower
 - The University owns the ground upon which FMC Tower will be constructed. Penn will occupy approximately 100,000 square feet of office space at the tower.
